

 FOUNDATION OF
CHATHAM-KENT
Health Alliance

Dear Friends,

You just never know what life is going to throw at you.

We have learned this lesson well in recent years.

In our 34 years of marriage, we've never been forced to face health issues like the ones that have threatened our lives since 2004. Scary, indeed! I don't know if we could have gotten through it all without the support of Chatham-Kent Health Alliance (CKHA).

We first moved to Chatham from Toronto in 1984. At the time, some of our new acquaintances had insinuated that if we had any serious health problems, we should consider going to another city for treatment. We have absolutely found the reverse to be true. My husband and I have experienced excellent care and phenomenal follow-up right here in our own community.

With help from CKHA, we've faced a hip replacement, two emergency surgeries and treatment for breast cancer. No family should have to deal with the level of pain and uncertainty that we have. But thanks to the care we've received, we are both recovering well.

Because of the advanced equipment at CKHA, we've been able to get right back to living our active lives. I really believe that the doctors, nurses, surgeons and healthcare professionals have helped to give us more precious years with our two sons and four delightful grandchildren. That is something you can't put a price on.

We hope you will help create more success stories like ours, by sending the Foundation of CKHA your support today.

Thanks so much for reading our story.

Best regards,

Ken Anderson
